

# Lab 2.1 Setting up Ubuntu Linux with VMWare Player

## 1 Set up Ubuntu Linux with VMWare Player

我使用MacOS系统，在这门课之前就在使用Ubuntu，所以缺失了一些步骤。我使用了图形化界面，便于代码编写和操作：

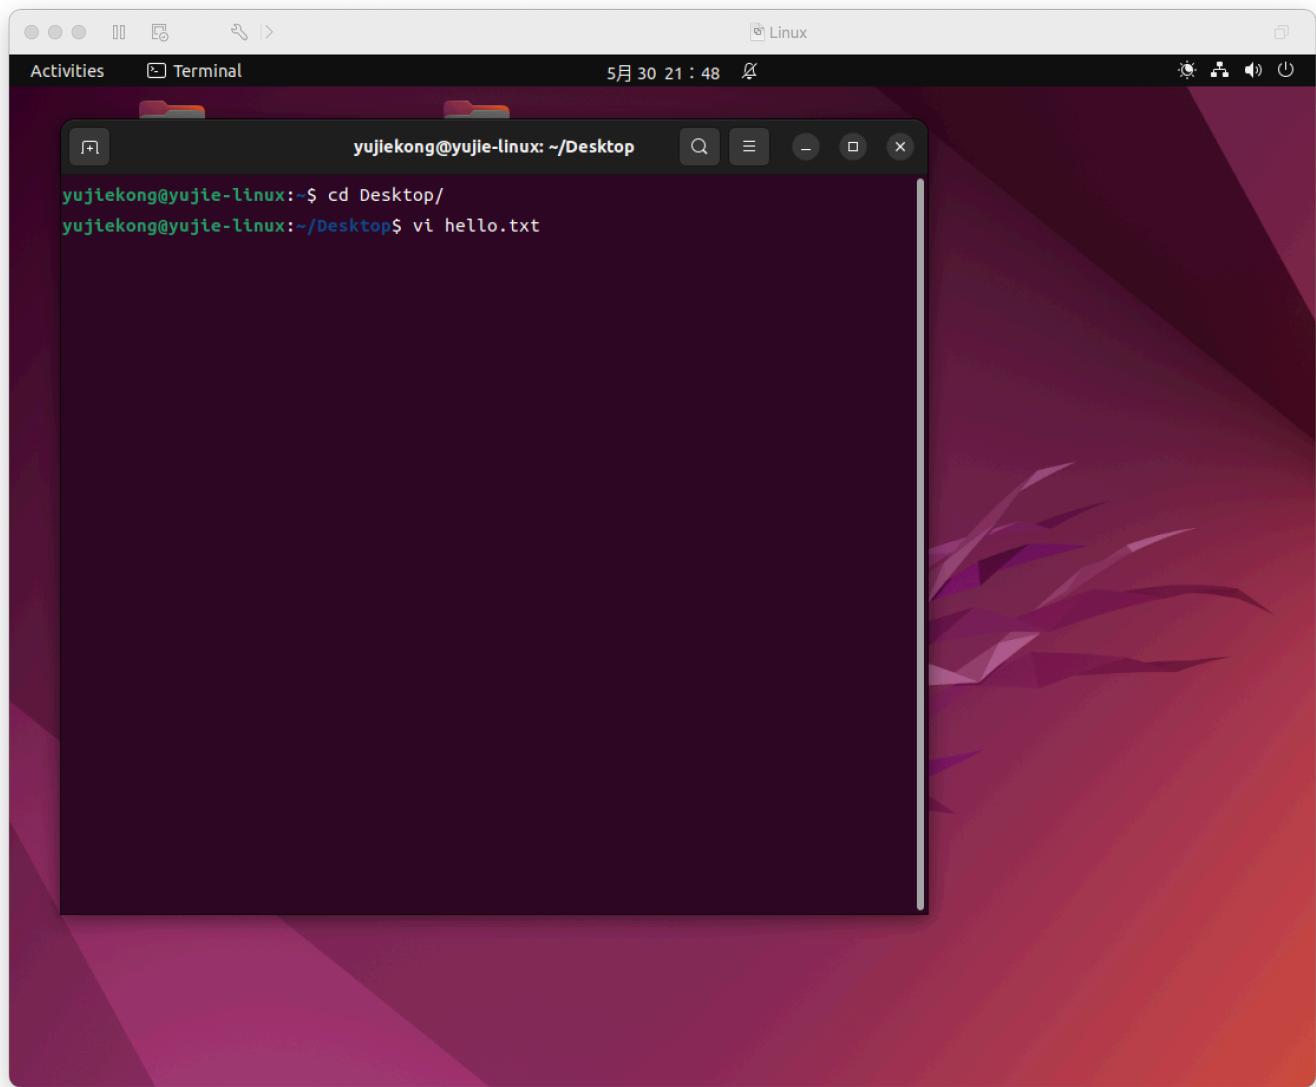

我使用的是Ubuntu22

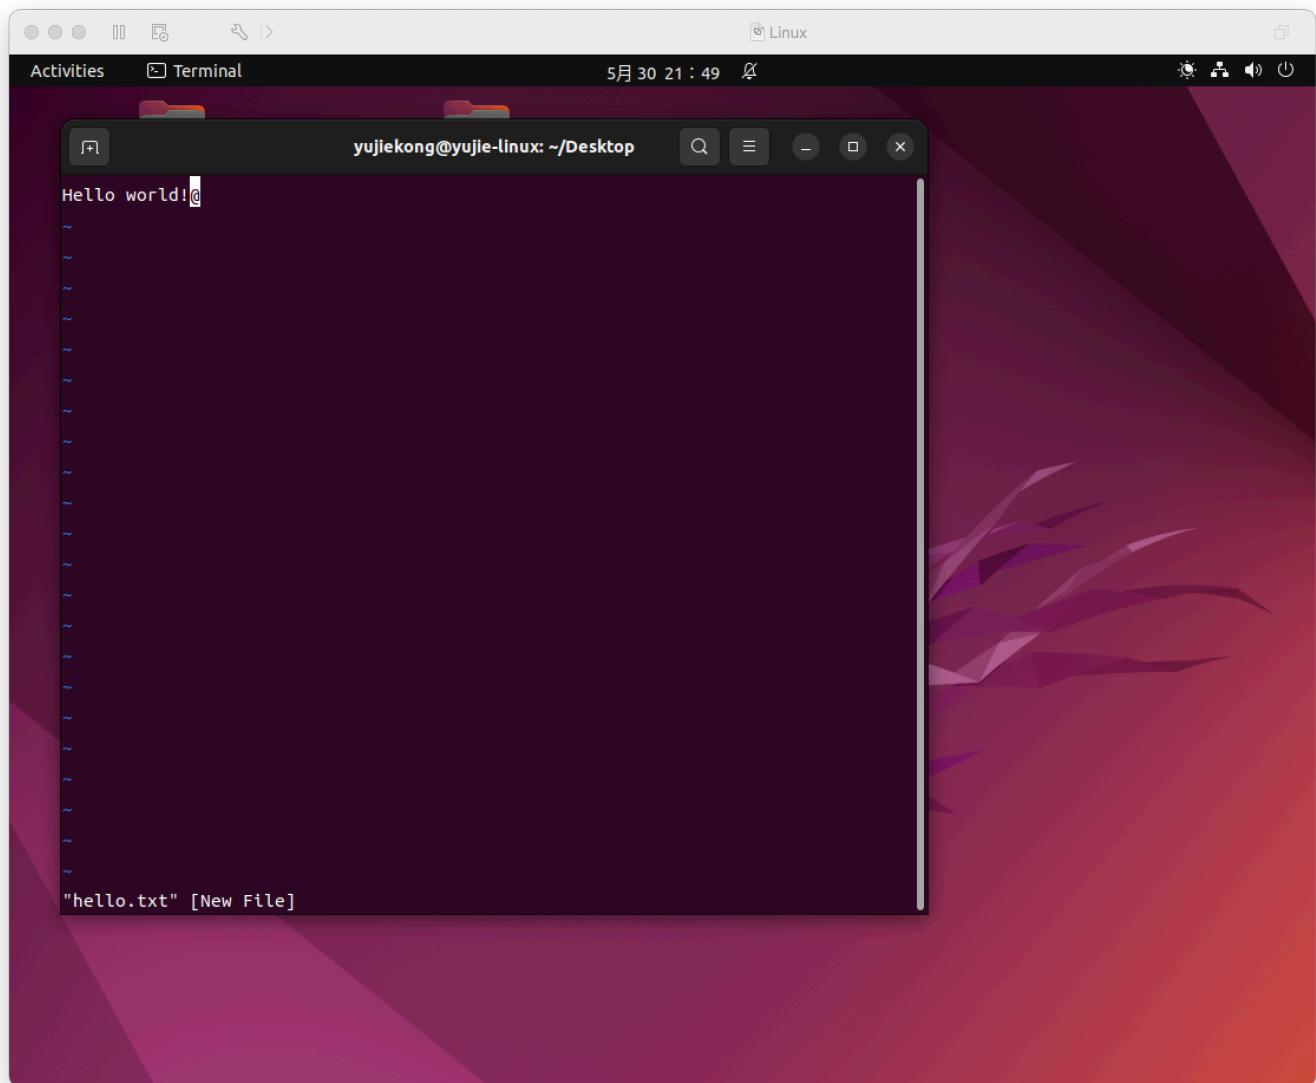

## 2 Edit a file in vi Text Editor

Create a file using vi by entering the command 'vi hello.txt'.

**Press i key to switch to Insert Mode.**

**Type the following: "Hello world!".**

**Press Esc key to go back to Command Mode.**

**Enter :wq to save and exit.**
